History of the Bible in Korean Language

The history of the Bible in Korean language dates back to the 19th century, coinciding with the introduction of Christianity to the Korean Peninsula. Early missionaries played a pivotal role in translating biblical texts into Korean to facilitate evangelism and religious instruction among native speakers. The initial translations were based on existing English and Chinese versions, and they laid the groundwork for subsequent, more refined Korean Bible editions.

Early Missionary Translations

Christian missionaries such as John Ross and Robert Jermain Thomas were among the first to translate portions of the Bible into Korean. These early translations focused primarily on the New Testament and key biblical narratives to support missionary work. Despite linguistic challenges, these efforts established the foundation for future translations and helped spread

Christianity in Korea.

Development Through the 20th Century

Throughout the 20th century, Korean Bible translations underwent several revisions to improve accuracy, readability, and cultural relevance. The Korean Bible Society and other religious organizations contributed to producing standardized versions that reflected modern Korean language usage while maintaining theological integrity. These developments were essential in making the Bible more accessible to Korean-speaking believers across generations.

Major Korean Bible Translations

There are several prominent Korean Bible translations widely used today, each with distinct characteristics tailored to different audiences and purposes. These translations vary in terms of translation philosophy, linguistic style, and denominational affiliation, providing options that cater to diverse preferences within the Korean Christian community.

The Revised Korean Version (개역개정)

The Revised Korean Version, known in Korean as 개역개정, is one of the most popular Bible translations in Korea. It is an updated revision of the original 개역본 (Revised Korean Version), aiming to enhance clarity and modernize language while preserving traditional phrasing. This version is widely used in Protestant churches and is known for its balance between formal equivalence and readability.

The New Korean Revised Version (새개역)

The New Korean Revised Version, or 새개역, emphasizes dynamic equivalence to provide easier comprehension for contemporary readers. It incorporates modern vocabulary and sentence structures, making it suitable for new believers and younger audiences. This translation is appreciated for its clear and straightforward language.

The Korean Living Bible (한국말 성경)

The Korean Living Bible is a paraphrased translation designed to convey the meaning of biblical texts in everyday Korean language. It prioritizes accessibility and relatability, often used in informal Bible study settings and evangelistic outreach. While not a literal translation, it helps readers grasp the core messages of scripture effectively.

Other Notable Versions

- The Catholic Bible in Korean, which aligns with Catholic liturgical texts and includes the Deuterocanonical books.
- The Common Translation Bible, a collaborative ecumenical effort aimed at unifying Bible usage across Korean Christian denominations.
- The New World Translation, used primarily by Jehovah's Witnesses, offering distinct doctrinal perspectives.

Linguistic Characteristics of the Korean Bible

The Bible in Korean language exhibits unique linguistic features shaped by the Korean writing system, grammar, and cultural context. Translators face the challenge of conveying complex theological concepts while respecting Korean linguistic norms and idiomatic expressions.

Use of Hangul and Classical Chinese Influence

Korean Bible translations are primarily written in Hangul, the Korean alphabet developed in the 15th century. Early translations sometimes incorporated Hanja (classical Chinese characters) to convey certain terms, especially theological or historical names. Modern translations, however, favor Hangul exclusively to enhance accessibility for all readers.

Syntax and Vocabulary Adaptation

The structure of Korean sentences differs significantly from the original biblical languages (Hebrew, Aramaic, and Greek). Translators must rearrange sentence order, adapt verb forms, and select appropriate honorifics to maintain clarity and respectfulness. Additionally, translators carefully choose vocabulary that accurately reflects biblical meaning while resonating

with Korean cultural concepts.

Challenges in Translating Biblical Concepts

Some biblical terms and theological ideas do not have direct equivalents in Korean. For example, concepts such as “grace,” “covenant,” and “redemption” require careful interpretation to avoid ambiguity. Translators often provide footnotes or explanatory comments to assist readers in understanding these complex ideas.

Usage and Accessibility of the Bible in Korean Language

The Bible in Korean language is widely used in various religious, educational, and cultural settings across Korea and Korean-speaking communities worldwide. Its accessibility has been enhanced through print, digital, and multimedia formats, ensuring broad reach and engagement.

They serve as foundational texts for preaching, teaching, and personal devotion. Many Korean Christian schools incorporate Bible study into their curricula, reinforcing religious literacy among students.

Print and Digital Formats

The Korean Bible is available in a variety of print editions, including study Bibles with commentaries and devotional guides. In recent years, digital platforms such as Bible apps and online resources have greatly increased the availability of Korean Bible texts. These tools offer search functions, audio versions, and interactive features that enhance user experience.

Outreach and Evangelism

The accessibility of the Bible in Korean language facilitates missionary work and evangelistic outreach both within Korea and among the Korean diaspora. Portable and digital Bibles enable believers to share scripture in diverse

contexts, supporting spiritual growth and community building.

bible in korean language: The Bible and Christianity in the Scientific Perspective Byung Kook Hwang, 2025-07-31 Korean Christianity must now be reborn as a biblical, agape religion of love and life, away from the religion of "salvation" and self-love that seeks personal blessing. God is love (1 John 4:8). Jesus is the source of life. There is life in Jesus Christ (John 1:4), and Jesus is the Word of life (1 John 1:1). The core of the Christian faith is faith alone in God and Jesus Christ. True Christians must understand the Bible correctly, obey and believe in God, and live righteously and good according to the Bible and God's will. The life of Jesus Christ is the highest standard of life for people to imitate. Christians in Korea should live a life of action in practice according to God's word in the Bible at home and in society. They should love one another in deed and truth, not just in word or in tongue (1 John 3:18). Only when this agape-style life of God's love takes root in Korean society, a truly biblical Christian culture will be established in Korea. True Christians have freedom in the Lord Jesus Christ and live a life of faith in obedience to God and Jesus Christ, refusing to be servants of the world.

bible in korean language: Prophets in the Qur'ān and the Bible Daniel S. Baeq, Sam Kim, 2022-05-24 The theme of prophets and prophecy is a central area of theological research and discussion in both Christianity and Islam. While academic researches on the prophets of Islamic tradition do exist, it is rare to find studies which compare them with the biblical accounts based on evangelical theology. This book provides theological analysis of the biblical prophets which appear in the Qur'an and the Islamic literature. The selection of prophets includes Adam, Nuh (Noah), Ibrahim (Abraham), Yusuf (Joseph), Musa (Moses), Dawud (David), Ezekiel (Dhul-Kifl), Zakariya, Yahya (John, the Baptist), and Mary the Mother of Jesus. The contributors are a distinguished group of international scholars who combine impressive academic credentials with extensive ministry among Muslims. Moreover, the international nature of the contributors lends credibility to the work as an exercise in global theology. This book lays a good foundation for the comparison of scriptural and theological traditions of two world major religions and for generating further discussions.

bible in korean language: The Rise of Protestantism in Modern Korea Andrew Eungi Kim, 2022-11-09 Combining sociological, historical and comparative approaches, this book examines one of the most striking aspects of South Korea, specifically the emergence of Protestant Christianity as the largest contemporary religion in the country. What is extraordinary about the religion's "success" is that its growth has been achieved in 130 years since 1884 and that it took place in a country with a rich oriental tradition, replete with shamanism, Taoism, Buddhism and Confucianism.

The text critically demonstrates the socio-anthropological perceptive of the Korean Peninsula, making it a great resource for scholars and students of sociology, contemporary culture, history, religion, colonialism, and geopolitics.

bible in korean language: Theology of Hope Sang Yun Lee, 2018-08-01 This book digs deep into Yonggi Cho's teaching of the Threefold Blessing: salvation, financial prosperity, and healing, expressing the biblical concept of hope in the Korean Pentecostal context. Ironically, hope always begins situations where it is lacking. The Threefold Blessing was the most urgent and eager hope in the desperate socio-economical and political situation following the Korean War. Cho's theology, successfully contextualized, became deeply lodged in the Korean Pentecostals' lives, which resulted in the growth of strong churches in Korea. But the context has now changed, in part due to the gospel's successful penetration of Korean culture and the Threefold Blessing must be reinterpreted and theologically recontextualized. The original Threefold Blessing emphasized the wellbeing of the individual person. The new Threefold Blessing must expand its theological perspectives to include social and ecological matters. This book suggests ways for its recontextualization for present and future of Korean Pentecostals.

III: From Modernism to Post-Modernism Magne Sæbø, Jean Louis Ska, Peter Machinist, 2014-12-10 The long and complex history of reception and interpretation of the Hebrew Bible / Old Testament through the ages, described in the HBOT Project, focuses in this concluding volume III, Part 2 on the multifarious research and the different methods used in the last century. Even this volume is written by Christian and Jewish scholars and takes its wider cultural and philosophical context into consideration. The perspective is worldwide and ecumenical. bible in korean language: Asian Translation Traditions Eva Tsoi Hung Hung, Judy Wakabayashi, 2014-07-16 Translation Studies, one of the fastest developing fields in the humanities since the early 1980s, has so far been Euro-centric both in its theoretical explorations and in its historical grounding. One of the major reasons for this is the unavailability of reliable data and systematic analysis of translation activities in non-European cultures. While a number of scholars in the Western tradition of translation studies have become increasingly aware of this bias and its problems, practically indicates that the burden of addressing such deficiencies and imbalances should be on the shoulders of scholars who are conversant with the non-Western translation traditions and capable of engaging in much-needed basic research. This book brings together eleven scholars with expertise in different Asian translation traditions, who highlight language and cultural environments as well as perceptions and modes of operation often different from those in the Western tradition. Their contributions enhance our understanding of the various elements that influence the transfer of knowledge across cultures and provide invaluable data for the study of translation as a force for cultural development and cultural planning. Contributors include Eva Hung, Judy Wakabayashi, Lawrence Wong, Yoshihiro Osawa, Teresa Hyun, Keith Taylor, Rita Kothari, Doris Jedamski, Raniela Barbaza and Bill Cummings.

bible in korean language: The Role of Religious Culture for Social Progress in East Asian Society Juan Francisco Martinez, Kwangsuk Yoo, Brian Byrd, 2023-03-29 Religious culture is

an important keyword for understanding rapidly changing East Asian society, especially China, Japan, and Korea. Despite the common influence of Confucian culture on these countries, each has shown a very different pattern of social progress in modern and postmodern times. Although surveys report a low ratio of religious identification and membership in this region, people in this area are religious in a different way from Western societies, and religious culture is closely related to political, economic, and social subsystems. A real force of changing East Asian society is not only political powers or economic classes, but also an invisible culture based on religious belief and practice. This book focuses on the dynamic relationship between social progress and religious culture, organization, or movements in each society since 1945.

bible in korean language: Transcontinental Links in the History of Non-Western Christianity Klaus Koschorke, 2002 Sehr viel starker und fruher, als bislang wahrgenommen, ist die Geschichte des Christentums in Asien, Afrika und Lateinamerika seit dem 16. Jahrhundert durch polyzentrische Strukturen gekennzeichnet. Zugleich bestanden zahlreiche Querverbindungen zwischen den entstehenden UberseeKirchen, teils auch ganz unabh ngig von missionarischen Netzwerken. Die Beitr ge der Zweiten Internationalen M nchen-Freisinger Konferenz behandeln unterschiedliche Formen transkontinentaler Verbindungen und fruhe Beispiele direkter SudSudBeziehungen. Dabei werden drei Paradigmen diskutiert: 1. Ethnische Diasporen als Netzwerke, die f r eine  berregionale Selbstausbreitung des Christentums relevant sind; 2. Transkontinentale Rezeptionsprozesse; 3. Parallelentwicklungen in Asien, Afrika und Lateinamerika. (Texte in deutscher und englischer Sprache). Since the 16th century the history of Christianity in Asia, Africa and Latin America has been much more polycentric in patterns of interaction than has been traditionally recognized. At the same time there have existed many links between the emergent overseas churches, often quite independent of missionary connections. The papers from the Second International MunichFreising Conference deal with various forms of transcontinental links and early instances of SouthtoSouth interactions. (Texts in German and English)

bible in korean language: Imperial Genus Travis Workman, 2016 A free ebook version of this title is available through Luminos, University of California Press's open access publishing program for monographs. Visit www.luminosoa.org to learn more. Imperial Genus begins with the turn to world culture and ideas of the generally human in Japan's cultural policy in Korea in 1919. How were concepts of the human's genus-being operative in the discourses of the Japanese empire? How did they inform the imagination and representation of modernity in colonial Korea? Travis Workman delves into these questions through texts in philosophy, literature, and social science. Imperial Genus focuses on how notions of human generality mediated uncertainty between the transcendental and the empirical, the universal and the particular, and empire and colony. It shows how cosmopolitan cultural principles, the proletarian arts, and Pan-Asian imperial nationalism converged with practices of colonial governmentality. It is a genealogy of the various articulations of the human's genus-being within modern humanist thinking in East Asia, as well as an exploration of the limits of the human as both concept and historical figure.

bible in korean language: The Holy Spirit Movement in Korea Young-hoon Lee, 2009-04-01 This book traces the historical and theological development of the Holy Spirit movement in Korea through six successive periods. These periods are characterized by repentance and revival (1900-1920), persecution and suffering under Japanese occupation (1920-1940), confusion and division (1940-1960), explosive revival in which the Pentecostal movement played a major role in the rapid growth of Korean churches (1960-1980), the movement's reaching out to all denominations (1980-2000), and the new context's demanding the Holy Spirit movement to open new horizons in its mission engagement (2000-). The volume also discusses the relationship between this movement and other religions such as shamanism, and looks forward to further engagement with issues of concern in the larger society.
