## Understanding the Better Business Bureau and Its Role

The Better Business Bureau is a nonprofit organization that aims to foster trust between consumers and businesses. It collects customer reviews, processes complaints, and assigns ratings to companies based on their reliability and responsiveness. BBB ratings range from A+ to F, reflecting the company's history of customer service, complaint resolution, and transparency in business practices. For financial institutions like Credit One Bank, being listed and rated by the BBB helps potential customers evaluate the quality of service they can expect.

## BBB Rating Criteria

The BBB evaluates businesses using several key factors, including complaint volume, response to complaints, type of business, time in operation, transparency, and licensing. These criteria ensure that companies with high BBB ratings maintain an ongoing commitment to customer satisfaction and ethical business conduct. The rating process is dynamic, adjusting as new information and customer feedback become available.

# **The Importance of BBB for Financial Institutions**

Financial service providers, including banks and credit card issuers, benefit from BBB accreditation because it enhances credibility. Consumers often rely on BBB ratings to gauge the trustworthiness of lenders and card issuers. Since credit services involve sensitive financial information and long-term commitments, the BBB's role in verifying customer experience and dispute resolution is particularly valuable.

**better business bureau credit one bank: Business Capital 101** Roberta A. Pellant, Tony Drexel-Smith, 2021-04-26 The purpose of this book is to define the process and protocols of the TASASS™ score. It also serves as the textbook for the USCGA™ TASASS™ certification course. It was written as a manual for students, entrepreneurs, finance professionals, advisors, and consultants. It defines the types of capital available and documentation requirements to achieve “success” in the capital marketplace. Success is defined as a trifecta of: 1) the enterprise acquiring capital; 2) the business becoming successful and 3) the capital source(s) receiving a positive outcome. Business Capital 101 provides clarity in an otherwise complicated environment of gaining access to capital for qualified enterprises. Our mission is to provide a compliant, professional, time-sensitive, cost-conscious, and realistic approach to the business finance process. We accomplish this mission by the implementation of a due diligence process known as the TASASS™ score. The TASASS™ score was developed as a result of a study of more than 300 enterprises engaged by me since 2008 wherein, I was able to determine the more than 300 common attributes amongst successful and failed ventures. The TASASS™ score is a combination of a Transaction Analysis™ (TA), a Situation Analysis™ (SA) implemented in a Software (S) that results in a Score (S). The TASASS™ score is a standardized objective due diligence process that serves capital markets during the enterprise vetting phase of capitalization. The software was created based on a 10-year study of 300 applicants. The goal of the proprietary Software as a Service (SaaS) is to identify opportunities that achieve a TASASS™ score in excess of 92.5%, known as “TASASS Prime™.” TASASS™ is an acronym for: Transaction Analysis Situation Analysis Scoring Software™. The TASASS™ score was developed by Tony Drexel Smith through the financial and human capital resources of: TASASS, Inc, The Association of Blue Moon Advisors, Blue Moon Advisors, Inc., Blue Moon Consortium, Inc., US Capital Global, SUMATICI, Inc., and TD Smith & Associates. Enterprises that have raised capital successfully have the following commonalities: they sought the right type of capital for their stage of development and ability to repay; they created documentation that speaks to the correct capital; and they earned a minimum of 925 out of the 1,000 points possible in our TASASS™ score.
