bible study in chinese language: Reading Christian Scriptures in China Chloe Starr, 2008-04-02 This volume sets out to examine how Christian scriptures have been read within a Chinese reading tradition, and to assess what questions such readings pose for both theologians and Chinese studies specialists. The absence to date of publications on the topic, and the scattered nature of such research and of scholars in the field makes this an important contribution to debate. The volume gathers essays from Biblical studies experts together with theologians and Chinese text scholars to discuss the interdisciplinary questions raised. Essays from mainland, Taiwanese and diasporic Chinese scholars ensure that a range of opinions (including those reflecting fault lines between 'academic' and 'confessional' positions) are presented. Within the four sections of the volume, several papers discuss and correct the current lineage of historical readings, while others study the historical impact of the Bible in Chinese society. Four essays give contextual or cross-cultural readings, with a focus on individual exegetes, mainly from the early twentieth century. The power of performance is raised in two essays, one comparative paper on Christian and Buddhist scriptures from the Qing dynasty and one on the singing of psalms in modern day Taiwan and Macao. Moral questions preoccupy others, including the challenges that early Chinese converts found in Biblical laws or Christian guidance on concubinage, and extrinsic readings of the Sermon on the Mount.

bible study in chinese language: The Translation of the Bible into Chinese Ann Cui'an Peng, 2021-04-23 A history of the translation of the Bible into Chinese, this book tells a fascinating story beginning with Western missionaries working closely with Chinese assistants. They struggled for one hundred years to produce a version that would meet the needs of a growing Chinese church, succeeding in 1919 with publication of the Chinese Union Version (CUV). Celebrating the CUV's centennial, this volume explores the uniqueness and contemporary challenges in the context of the history of Chinese Bible translation, a topic that is attracting more and more attention. Peng's experiences give her a unique perspective and several advantages in conducting this research. Like the majority of readers of the CUV, she grew up in mainland China. When Chinese Christians went through severe political and economic ordeals, she was there to witness the CUV comforting those who were suffering under persecution. She has participated in Chinese Bible revision under the United Bible Societies. She was also director of the Commission on Bible Publication at the China Christian Council and chief editor of the CUV concise annotated version (1998).

bible study in chinese language: Protestant Bible Translation and Mandarin as the National Language of China George Kam Wah Mak, 2017-03-06 This book represents the first monograph-length study of the relationship between Protestant Bible translation and the development of Mandarin from a lingua franca into the national language of China. Drawing on both published and unpublished sources, this book looks into the translation, publication, circulation and use of the Mandarin Bible in late Qing and Republican China, and sets out how the Mandarin Bible contributed to the standardization and enrichment of Mandarin. It also illustrates that the Mandarin Union Version, published in 1919, was involved in promoting Mandarin as not only the standard medium of communication but also a marker of national identity among the Chinese people, thus playing a role in the nation-building of modern China.

bible study in chinese language: Handbook of Christianity in China Nicolas Standaert, R. G. Tiedemann, 2009-12-01 The second volume on Christianity in China covers the period from 1800 to the present day, dealing with the complexities of both Catholic and Protestant aspects.

bible study in chinese language: Biblical Translation in Chinese and Greek Toshikazu Foley, 2009-09-30 This study integrates three independent subjects—translation theory, Mandarin aspect, and Greek aspect—for the purpose of formulating a working theory applicable to translating the Bible. The primary objectives are defined in terms of grammatical translation of Greek aspect into Mandarin aspect at the discourse level. A historical overview of the Chinese Bible is provided as a way of introducing major translation issues related to linguistic, conceptual, and logistical

challenges. The proposed theory provides the translator with a powerful tool, which is tested in two sample passages from John 18-19 and 1 Corinthians 15. Provided, also, are critical reviews of over sixty Chinese Bible versions, Nestorian, Manichaeian, Catholic documents, and a translation written according to the proposed theory.

bible study in chinese language: *Studying Christianity in China* Naomi Thurston, 2018-04-24 *Studying Christianity in China* introduces an emerging academic trend in contemporary Chinese scholarship. Through qualitative interviews with leading experts in Chinese Christian studies, Naomi Thurston has investigated the ongoing conversation between China and Christianity. Since the 1980s, this conversation has given rise to an interdisciplinary academic field that is quickly gaining traction as a cutting-edge, cross-cultural discourse. The Chinese intellectuals driving this field are encountered as unique transmitters of cultural knowledge: they are cultural mediators working in a range of humanities and social science disciplines who are not only re-interpreting Western theology, but are also lending a new voice to Chinese expressions of the Christian faith. As such, they are at the forefront of a novel force in World Christianity.

bible study in chinese language: *Chinese Christians in America* Fenggang Yang, 2010-11-01 Christianity has become the most practiced religion among the Chinese in America, but very little solid research exists on Chinese Christians and their churches. This book is the first to explore the subject from the inside, revealing how Chinese Christians construct and reconstruct their identity--as Christians, Americans, and Chinese--in local congregations amid the radical pluralism of the late twentieth century. Today there are more than one thousand Chinese churches in the United States, most of them Protestant evangelical congregations, bringing together diasporic Chinese from diverse origins--Taiwan, Hong Kong, mainland China, and Southeast Asian countries. Fenggang Yang finds that despite the many tensions and conflicts that exist within these congregations, most individuals find ways to creatively integrate their evangelical Christian beliefs with traditional Chinese (most Confucian) values. The church becomes a place where they can selectively assimilate into American society while simultaneously preserving Chinese values and culture. Yang brings to this study unique experience as both participant and observer. Born in mainland China, he is a sociologist who converted to Christianity after coming to the United States. The heart of this book is an ethnographic study of a representative Chinese church, located in Washington, D. C., where he became a member. Throughout the book, Yang draws upon interviews with members of this congregation while making comparisons with other churches throughout the United States. *Chinese Christians in America* is an important addition to the literature on the experience of new immigrant communities.

bible study in chinese language: *Chinese Biblical Anthropology* Jian Cao, 2019-06-28 In this study that is largely intellectual history, Cao Jian observes how Old Testament motifs were introduced by Protestant missionaries and Bible translators, with the help of Chinese co-workers in the beginning, and how those motifs drew attention from local converts and led to discussions among them in light of the norms in Confucianism. Then, Cao demonstrates how Confucian reformists started reacting to missionary publications and showing interest in Old Testament motifs. After the defeat of China in 1894-1895 in the Sino-Japanese War, the response to the Old Testament became more active and influential among China's population. The author shows new interests and tendencies in Old Testament interpretation among educated Chinese with various political ideals at a time of national crisis. He also demonstrates how the vernacular movement in Bible translating and missionary Old Testament education popularized and modernized Old Testament reading and studies in Chinese society. After that transitional period, discussions of Old Testament motifs became even more abundant and diverse. The author concentrates on those regarding the notion of God and monotheism. In China's nationalism, the Old Testament proved no less stimulating. The author deals with Moses and the prophets to understand how they became valid to those active in both religious and secular realms.

bible study in chinese language: Religion and the New Immigrants Helen Rose Ebaugh, Janet Saltzman Chafetz, 2000-10-18 New immigrants-those arriving since the Immigration Reform Act of 1965-have forever altered American culture and have been profoundly altered in turn. Although the religious congregations they form are often a nexus of their negotiation between the old and new, they have received little scholarly attention. Religion and the New Immigrants fills this gap. Growing out of the carefully designed Religion, Ethnicity and the New Immigration Research project, Religion and the New Immigrants combines in-depth studies of thirteen congregations in the Houston area with seven thematic essays looking across their diversity. The congregations range from Vietnamese Buddhist to Greek Orthodox, a Zoroastrian center to a multi-ethnic Assembly of God, presenting an astonishing array of ethnicity and religious practice. Common research questions and the common location of the congregations give the volume a unique comparative focus. Religion and the New Immigrants is an essential reference for scholars of immigration, ethnicity, and American religion.

Kuo, Dong-Ha Kim, In Kee Kim, 2020-07-02 This book, People of Faith, People of Jeong (Qing), seeks to reveal and understand the current state and the future prospective of Asian Canadian immigrant churches (ACIC), including Chinese, Taiwanese, and Korean churches. It provides a thorough introduction and guide to primary and secondary sources on Christian enterprises and individuals in China that are preserved in hundreds of libraries, archives, historical societies, headquarters of religious orders, and other repositories in the United States. It includes data from the beginnings of Christianity in China in the early eighth century through 1952, when American missionary activity in China virtually ceased. For this new edition, the institutional base has shifted from the Princeton Theological Seminary (Protestant) to the Ricci Institute for Chinese-Western Cultural Relations at the University of San Francisco (Jesuit), reflecting the ecumenical nature of this monumental undertaking.

bible study in chinese language: Fusion of East and West Limin Bai, 2019-08-05 In Fusion of East and West, Limin Bai presents a major work in the English language that focuses on Chinese textbooks and the education of children for a new China in a critical transitional period, 1902-1915. This study examines the life and work of Wang Hengtong (1868-1928), a Chinese Christian educator, and other Christian and secular writings through a historical and comparative lens and against the backdrop of the socio-political, ideological, and intellectual frameworks of the time. By doing so, it offers a fresh perspective on the significant connection between Christian education, Chinese Christian educators and the birth of a modern educational system. It unravels a cross-cultural process whereby missionary education and the Chinese education system were mutually re-shaped.
