daily business review broward: The Money and the Power Sally Denton, Roger Morris, 2002-05-07 Las Vegas—the name evokes images of divorce and dice, gangsters and glitz. But beneath it all is a sordid history that is much more insidious and far-reaching than ever imagined. *The Money and the Power* is the most comprehensive look yet at Las Vegas and its breadth of influence. Based on five years of intensive research and interviewing, Sally Denton and Roger Morris reveal the city's historic network of links to Wall Street, international drug traffickers, and the CIA. In doing so, they expose the disturbing connections amongst politicians, businessmen, and the criminals that harness these illegal activities. Through this lucid and gripping indictment of Las Vegas, Morris and Denton uncover a national ethic of exploitation, violence, and greed, and provide a provocative reinterpretation of twentieth-century American history. Now this neon maelstrom of ruthlessness and greed stands to not as an aberrant "sin city," but as a natural outgrowth of the corruption and worship of money that have come to permeate American life.

daily business review broward: **Shattered Bonds** Dorothy Roberts, 2009-02-23 The story of foster care in the United States is the story of the failure of the social safety net to aid poor, largely black, parents in their attempt to make a home for their children. *Shattered Bonds* tells this story as no other book has before -- from the perspective of a prominent black, female legal theoretician. The current state of the child-welfare system in America is a well-known tragedy. Thousands of children every year are removed from their parents' homes, often for little reason other than the endemic poverty that afflicts women and children more than any other group in the United States. Dorothy Roberts, an acclaimed legal scholar and social critic, reveals the racial politics of child welfare in America through extensive legal research and original interviews with Chicago families in the foster care system. She describes the racial imbalance in foster care, the concentration of state intervention in certain neighborhoods, the alarming percentages of children in substitute care, the difficulty that poor and black families have in meeting state's standards for regaining custody of children placed in foster care, and the relationship between state supervision of families and continuing racial inequality.

daily business review broward: The Impossibility of Religious Freedom Winnifred Fallers Sullivan, 2018-04-24 The Constitution may guarantee it. But religious freedom in America is, in fact, impossible. So argues this timely and iconoclastic work by law and religion scholar Winnifred Sullivan. Sullivan uses as the backdrop for the book the trial of Warner vs. Boca Raton, a recent case concerning the laws that protect the free exercise of religion in America. The trial, for which the author served as an expert witness, concerned regulations banning certain memorials from a multiconfessional nondenominational cemetery in Boca Raton, Florida. The book portrays the unsuccessful struggle of Catholic, Protestant, and Jewish families in Boca Raton to preserve the practice of placing such religious artifacts as crosses and stars of David on the graves of the city-owned burial ground. Sullivan demonstrates how, during the course of the proceeding, citizens from all walks of life and religious backgrounds were harassed to define just what their religion is. She argues that their plight points up a shocking truth: religion cannot be coherently defined for the purposes of American law, because everyone has different definitions of what religion is. Indeed, while religious freedom as a political idea was arguably once a force for tolerance, it has now become a force for intolerance, she maintains. A clear-eyed look at the laws created to protect religious freedom, this vigorously argued book offers a new take on a right deemed by many to be

necessary for a free democratic society. It will have broad appeal not only for religion scholars, but also for anyone interested in law and the Constitution. Featuring a new preface by the author, *The Impossibility of Religious Freedom* offers a new take on a right deemed by many to be necessary for a free democratic society.

daily business review broward: *Contract Law in Electronic Commerce* Ralf Holthöfer, 2001-01-31 Inhaltsangabe: Abstract: This paper was written during my studies at Georgia State University, Atlanta in Fall 2000 in the context of an exchange program between Georgia State University and Technische Universität Darmstadt. Its subject is the new contract law in electronic commerce. The paper starts with an illustration of the situation of legal uncertainty prior to the establishment of a specific contract law in electronic commerce. Many laws governing contract formation were drafted before the existence of electronic messaging and did not adequately address the challenges of electronic transactions. Furthermore, electronic transactions were often hindered by the diversity of state laws. This situation was considered to place some severe legal obstacles to the development of electronic commerce. In 1997, President Clinton and Vice President Gore unveiled their Framework for Global Electronic Commerce. This issue defined the main goals for the future development of both domestic and global electronic commerce. The general objective was to establish a Uniform Commercial Code for this ascending sector of commerce in order to facilitate and enforce electronic transactions. The legislative efforts to achieve those goals recently resulted in two uniform acts, the Uniform Computer Information Transactions Act (UCITA) and the Uniform Electronic Transactions Act (UETA), and the federal Electronic Signatures in Global and National Commerce Act (E-sign Act). The paper deals with these new legislative approaches. Aside from the presentation of the scopes of the different acts the paper focuses on their fundamental principles and major provisions. Furthermore, it discusses the new enactments in the context of a selection of fundamental legal issues raised by electronic commerce. This discussion finally shows that, although there have been a number of serious endeavors to achieve the above mentioned goals by drafting several electronic commerce statutes, the recent enactments relating to contract law in electronic commerce are not able to achieve the goals set out in the Framework for Global Electronic Commerce. There still remain significant legal obstacles that prohibit electronic commerce from reaching its full potential. daily business review broward: *Black Money and Economic Crimes* Dr. A.K. Saxena, 2021-08-03 In the modern economic system, Black Money refers to funds earned in the black market, on which income and other taxes have not been paid. The total amount of black money deposited in foreign banks by Indians is unknown, but one estimate by an expert reveals that the black money held by Indians, in foreign banks is more than all the black money, hoarded by people in the rest of the world, combined together. While official numbers are not available, Swiss banking personnel have also said that the largest depositors of illegal foreign money in Switzerland are Indians. Black Money is an economic term, hard to define, accurately. Black Money is also

sometimes used for payments to evade tax. However, this is a mild form of black money. This money in fact is obtained, illegally and is partially suppressed. A popular way for criminals to launder black money in property is to set up complex structures. In this way, they try to see that the money flows out. This book on this subject should certainly prove to be an asset for all scholars, researchers and social activists

daily business review broward: Total Quality in Marketing Frank Voehl, 2017-10-06 Total Quality in Marketing integrates the two areas of marketing and quality management and demonstrates how they are mutually compatible and complementary. Its primary focus is to assist managers in applying total quality principles to the overall marketing management process-preparing for a more highly competitive marketplace. Practical guidelines and processes are offered on how quality initiatives impact planning, organization, implementation, and quality control. This unique and valuable book presents a systems approach to quality-how to operationalize in the context of both the management and marketing cycles. It demonstrates how to establish effective team-based practices as well as describes the pitfalls of quality programs that are introduced as stand-alone programs without any linkage to overall strategy. This useful new book serves as a teaching tool and comprehensive reference source for integrating total quality. Case studies, exercises and chapter profiles also provide excellent support materials.

daily business review broward: Lowering the Bar Marc Galanter, 2006-08-08 What do you call 600 lawyers at the bottom of the sea? Marc Galanter calls it an opportunity to investigate the meanings of a rich and time-honored genre of American humor: lawyer jokes. Lowering the Bar analyzes hundreds of jokes from Mark Twain classics to contemporary anecdotes about Dan Quayle, Johnnie Cochran, and Kenneth Starr. Drawing on representations of law and lawyers in the mass media, political discourse, and public opinion surveys, Galanter finds that the increasing reliance on law has coexisted uneasily with anxiety about the "legalization" of society. Informative and always entertaining, his book explores the tensions between Americans' deep-seated belief in the law and their ambivalence about lawyers.
