The core principles include trust, reliability, mutual value, and emotional connection. By adhering to these principles, businesses can create a patronage system where customers feel valued and motivated to remain loyal.

Peña, 2020-11-03 2021 Jim Parish Award for Documentation and Publication of Local and Regional History, Webb County Heritage Foundation For 120 years, residents of the cross-border community of Laredo/Nuevo Laredo have celebrated George Washington's birthday together, and this account reveals the essential political work of a time-honored civic tradition. Since 1898, residents of Laredo, Texas, and Nuevo Laredo, Tamaulipas, have reached across the US-Mexico border to celebrate George Washington's birthday. The celebration can last a whole month, with parade goers reveling in American and Mexican symbols; George Washington saluting; and "Pocahontas" riding on horseback. An international bridge ceremony, the heart and soul of the festivities, features children from both sides of the border marching toward each other to link the cities with an embrace. *iViva George!* offers an ethnography and a history of this celebration, which emerges as both symbol and substance of cross-border community life. Anthropologist and Laredo native Elaine A. Peña shows how generations of border officials, civil society organizers, and everyday people have used the bridge ritual to protect shared economic and security interests as well as negotiate tensions amid natural disasters, drug-war violence, and immigration debates. Drawing on previously unknown sources and extensive fieldwork,

Peña finds that border enactments like Washington's birthday are more than goodwill gestures. From the Rio Grande to the 38th Parallel, they do the meaningful political work that partisan polemics cannot.

d k business patron: *Corruption, Capitalism and Democracy* John Girling, 2002-03-11

Corruption arises from the collusion of economic and political elites, a practice that has developed in order to overcome the contradiction of two important processes of our time: capitalism and democracy. In this new study of the phenomenon, the author shows how corruption is the practice of collusion taken to excess; 'the unacceptable face of capitalism'. Corruption, by 'going too far', exposes what is normally hidden from view; the collusive system of elites furthering the expansion of capitalist practice and market practice at the expense of democratic practice and public values.
