i am cool quiz: Free School Teaching Kristan Accles Morrison, 2012-02-01 Free School Teaching is the personal and professional journey of one teacher within the American educational system. Faced with mounting frustrations in her own traditional, middle school classroom and having little success in resolving them, Kristan Accles Morrison decided to seek out answers, first by immersing herself in the academic literature of critical education theory and then by turning to the field. While the literature on progressive education gave her hope that things could be different and better for students locked into America's traditional education system, she wanted to find a firsthand example of how these ideas played out in practice. Morrison found a radical free school in Albany, New York, that embodied the ideas found in the literature, and over a period of three months she observed and documented differences between alternative and traditional schools. In trying to reconcile the gap between those systems, Morrison details the lessons she learned about teachers, students, curriculum, and the entire conception of why we educate our children.

i am cool quiz: The Book of Fred Abby Bardi, 2002-01-27 Filled with soulful humor and quiet pathos, Abby Bardi's boldly drawn first novel marks the debut of a joyfully talented chronicler of the quest for connection in contemporary life. Mary Fred Anderson, raised in an isolated fundamentalist

sect whose primary obsessions seem to involve an imminent Apocalypse and the propagation of the name Fred, is hardly your average fifteen-year-old. She has never watched TV, been to a supermarket, or even read much of anything beyond the inscrutable dogma laid out by the prophet Fred. But this is all before Mary Fred's whole world tilts irrevocably on its axis: before her brothers, Fred and Freddie, take sick and pass on to the place the Reverend Thigpen calls the World Beyond; before Mama and Papa are escorted from the Fredian Outpost in police vans; and Mary Fred herself is uprooted and placed in foster care with the Cullison family. It is here, at Alice Cullison's suburban home outside Washington, D.C., where everything really changes—for all parties involved. Mary Fred's new guardian, Alice, is a large-hearted librarian who, several years after her divorce, can't seem to shake her grief and loneliness. Meanwhile, Alice's daughter Heather, also known as Puffin, buries any hint of her own adolescent loneliness beneath an impenetrable armor of caustic sarcasm, studied apathy, and technicolor hair. And the enigmatic Uncle Roy is Alice's perennially jobless and intensely private brother. As Mary Fred struggles to adjust to the oddities of this alien world, from sordid daytime television and processed food to aromatherapy and transsexuality, she gradually begins to have an unmistakable influence on the lives of her housemates. But when a horrifying act of violence shakes the foundations of Mary Fred's fragile new family, she finds herself forced to confront, painfully, the very nature of the way she was raised. With a knack for laying bare the absurdities of daily life, Abby Bardi captures, with grace and authority, all the ambivalence and emotional uncertainty at the heart of these quirky characters' awakenings.
