hymn to intellectual beauty analysis: Shelley's Living Artistry Madeleine Callaghan, 2017 This study of the poetry and drama of Percy Bysshe Shelley reads the letters and their biographical contexts to shed light on the poetry, tracing the ambiguous and shifting relationship between the poet's art and life. For Shelley, both life and art are transfigured by their relationship with one

another where the 'poet participates in the eternal, the infinite, and the one' but is equally bound up with and formed by the society in which he lives and the past that he inherits. Callaghan shows that the distinctiveness of Shelley's work comes to rest on its wrong-footing of any neat division of life and art. The dazzling intensity of Shelley's poetry and drama lies in its refusal to separate the twain as Shelley explores and finally explodes the boundaries between what is personal and what is poetic. Arguing that the critic, like the artist, cannot ignore the conditions of the poet's life, Callaghan reveals how Shelley's artistry reconfigures and redraws the actual in his poetry. The book shows how Shelley's poetic daring lies in troubling the distinction between poetry as aesthetic work hermetically sealed against life, and poetry as a record of the emotional life of the poet.

hymn to intellectual beauty analysis: After the New Criticism Frank Lentricchia, 2018-12-14 This work is the first history and evaluation of contemporary American critical theory within its European philosophical contexts. In the first part, Frank Lentricchia analyzes the impact on our critical thought of Frye, Stevens, Kermode, Sartre, Poulet, Heidegger, Sussure, Barthes, Lévi-Strauss, Derrida, and Foucault, among other, less central figures. In a second part, Lentricchia turns to four exemplary theorists on the American scene—Murray Krieger, E. D. Hirsch, Jr., Paul de Man, and Harold Bloom—and an analysis of their careers within the lineage established in part one. Lentricchia's critical intention is in evidence in his sustained attack on the more or less hidden formalist premises inherited from the New Critical fathers. Even in the name of historical consciousness, he contends, contemporary theorists have often cut literature off from social and temporal processes. By so doing he believes that they have deprived literature of its relevant values and turned the teaching of both literature and theory into a rarefied activity. All along the way, with the help of such diverse thinkers as Saussure, Barthes, Foucault, Derrida, and Bloom, Lentricchia indicates a strategy by which future critical theorists may resist the mandarin attitudes of their fathers.

hymn to intellectual beauty analysis: Poetic Form and British Romanticism Stuart

Curran, 1990-02-22 Across Europe, and particularly in Great Britain, the Romantic age coincided with a large-scale revival of lost literatures and the first attempts to create a coherent history of Western literature. Calling into question that history, Stuart Curran demonstrates that the Romantic poets, far from being indifferent or hostile to popular forms of literature were actually obsessed with them as repositories of literary conventions and conveyors of implicit ideological value. Whether in their preoccupation with fixed forms, which resulted in the incomparable artistry of Romantic odes, or in their rethinking of major genres like the pastoral, the epic, and the romance, the Romantic poets transformed every element they touched to suit their own democratic, secular and skeptical ethos--a world view recognizably modern in its dimensions.

The collection considers both the reception and influence of Nordic romanticism in Britain and Germany and also the reciprocal impact of British and German

romanticism in the Nordic countries. hymn to intellectual beauty analysis: *The Poet-Hero in the Work of Byron and Shelley* Madeleine Callaghan, 2019-02-28 Byron's and Shelley's experimentation with the possibilities and pitfalls of poetic heroism unites their work. *The Poet-Hero in the Work of Byron and Shelley* traces the evolution of the poet-hero in the work of both poets, revealing that the struggle to find words adequate to the poet's imaginative vision and historical circumstance is their central poetic achievement. Both poets experiment with, challenge and embrace a variety of poetic forms and genres, and this book discusses such generic exploration in the light of their developing versions of the poet-hero. hymn to intellectual beauty analysis: *The Literary Imagination from Erasmus Darwin to H.G. Wells* Michael R. Page, 2016-03-09 At the close of the eighteenth century, Erasmus Darwin declared that he would 'enlist the imagination under the banner of science,' beginning, Michael Page

argues, a literary narrative on questions of evolution, ecology, and technological progress that would extend from the Romantic through the Victorian periods. Examining the interchange between emerging scientific ideas—specifically evolution and ecology—new technologies, and literature in nineteenth-century Britain, Page shows how British writers from Darwin to H.G. Wells confronted the burgeoning expansion of scientific knowledge that was radically redefining human understanding and experience of the natural world, of human species, and of the self. The wide range of authors covered in Page's ambitious study permits him to explore an impressive array of topics that include the role of the Romantic era in the molding of scientific and cultural perspectives; the engagement of William Wordsworth and Percy Shelley with questions raised by contemporary science; Mary Shelley's conflicted views on the unfolding prospects of modernity; and how Victorian writers like Charles Kingsley, Samuel Butler, and W.H. Hudson responded to the implications of evolutionary theory. Page concludes with the scientific romances of H.G. Wells, to demonstrate how evolutionary fantasies reached the pinnacle of synthesis between evolutionary science and the imagination at the close of the century.
