meditation on the light wow: Paranormal States D. E. Osto, 2024-09-10 A number of converts to Buddhism report paranormal experiences. Their accounts describe psychic abilities like clairvoyance and precognition, out-of-body experiences, near-death experiences, and encounters with other beings such as ghosts and deities, and they often interpret these events through a specifically Buddhist lens. This book is a groundbreaking exploration of these phenomena and their implications for both humanistic and scientific study of the paranormal. D. E. Osto examines accounts of paranormal phenomena experienced by convert Buddhists from around the world collected through an online survey and interviews, placing them in the context of Indian Buddhist sources and recent scientific research. They focus in detail on the life stories of two interviewees and the important role the paranormal has played in their lives. These contemporary first-person narratives demonstrate the continued importance of the psychic and paranormal within the Buddhist tradition, and they can be interpreted as a living Buddhist folklore. Osto considers the limitations of both traditional religious views and Western scientific studies of the paranormal and proposes instead a new Buddhist phenomenological approach. Ultimately, Paranormal States contends, these deeply mysterious and extraordinary experiences exceed current understandings—and they can help bridge the gap between religious and scientific worldviews.

meditation on the light wow: Healing Collective Trauma Thomas Hübl, Julie Jordan Avritt, 2020-11-17 A Comprehensive Guide to Understanding and Healing Shared Trauma What can you do when you carry scars not on your body, but within your soul? And what happens when those spiritual wounds exist not just in you, but in everyone in your family, community, and even beyond? Spiritual teacher Thomas Hübl has spent years investigating why it is that old and seemingly disconnected traumas can seed their way through communities and across generations. His work culminates in Healing Collective Trauma, a new perspective on trauma that addresses both its visible effects and its most hidden roots. Thomas combines deep knowledge of mystical traditions with the latest scientific research. "In this way," writes Thomas, "we are weaving a double helix between ancient wisdom and contemporary understanding." Thomas details the Collective Trauma Integration Process, a group-based modality for evoking and eventually dissolving stuck traumatic energies. Providing structured practices for both students and group facilitators, Healing Collective Trauma is intended to build a practical tool kit for integration. Here, you will learn:

- The innumerable ways trauma shapes our world—from identity and health to economy, geopolitics, and the state of the environment
- The concept of "trauma loyalty"—unconscious group bonds based in a pain narrative
- How the climate crisis is both a manifestation of humanity's collective trauma and an opportunity to heal
- "Retrocausality"—how the power of presence can reshape the past and make new futures possible

Including essays contributed by experts such as Dr. Gabor Maté, Dr. Otto Scharmer, Dr. Christina Bethell, and Ken Wilber, Healing Collective Trauma offers not just an advanced look at

community trauma but also a hopeful glimpse of the future. As Thomas declares, "Together, I believe we can and must heal the 'soul wound' that marks us all. In so doing, we will awaken to the luminous possibility and profound potential of our true, mutual nature as humankind."

meditation on the light wow: Active Meditation Robert R. Leichtman, Carl Japikse, 1982
Now in its sixth printing, *Active Meditation* is rapidly becoming acclaimed as the most thorough and insightful explanation of meditation in print. Yet it is not just the most complete book ever written on meditation. More importantly, it is a masterful statement of the emerging Western tradition of personal and spiritual growth. Authors Robert R. Leichtman, M.D. and Carl Japikse emphasize the practical nature of meditation. To them, the subjects of meditation and personal growth are inseparable. They decry the passiveness which has crept into so many systems of meditation, presenting instead a strong case that meditation is most effective when it is active. Indeed, the active practice of meditation is the Western tradition. In the book, the authors describe: -- What meditation is -- and is not. -- How meditation accelerates personal and spiritual growth. -- The nature of the higher self -- and its relationship with the personality. -- How to contact the higher self. -- The work of integration. -- The skills of meditation and how to use them. -- Seven techniques of Active Meditation. -- Group meditations. -- Aids to meditation. -- Problems associated with meditation. Throughout, the constant goal of the authors is to strip away the vagueness and obscurity often associated with meditation. In many ways, *Active Meditation* is the most encyclopedic book ever written about meditation.

meditation on the light wow: *Soul'S Journey* Rev. Dr. Becky Rector MDiv, 2017-09-11 Many people have asked themselves, What is my hearts desire? This question can be confusing. Perhaps you arrived at a point when you felt confident in what your hearts desire looked like. You may have even started making the choice to go after it, whatever it is, only to have something get in your way, maybe more than once. This barrier that always seems to pop up may have manifested as fear, either your own or that of a loved one, that pulled you away from your decision. This fear of the unknown may have forced you to stay in your current situation. No matter how this barrier manifested, it seemed to get in your way every time. Now, some people may believe this interference is a sign from the utmost. Or perhaps they believe that, by staying in their current situation, they will find a new happiness that will lead to contentment. So which is the true hearts desire? The answer is simple: Its the one that, when you see yourself obtaining it, gives you the most joy and happiness. Its the one that makes your heart race.
