political dramas tv shows: Politics and Politicians in Contemporary US Television Betty Kaklamanidou, Margaret Tally, 2016-10-04 Bringing together well-established scholars of media, political science, sociology, and film to investigate the representation of Washington politics on U.S. television from the mid-2000s to the present, this volume offers stimulating perspectives on the status of representations of contemporary US politics, the role of government and the machinations and intrigue often associated with politicians and governmental institutions. The authors help to locate these representations both in the context of the history of earlier television shows that portrayed the political culture of Washington as well as within the current political culture transpiring both inside and outside of The Beltway. With close attention to issues of gender, race and class and offering studies from contemporary quality television, including popular programmes such as *The West Wing*, *Veep*, *House of Cards*, *The Americans*, *The Good Wife* and *Scandal*, the authors examine the ways in which televisual representations reveal changing attitudes towards Washington culture, shedding light on the role of the media in framing the public's changing perception of politics and politicians. Exploring the new era in which television finds itself, with new production practices and the possible emergence of a new 'political genre' emerging, *Politics and Politicians in Contemporary U.S. Television* also considers the 'humanizing' of political characters on television, asking what that representation of politicians as human beings says about the national political culture. A fascinating study that sits at the intersection of politics and television, this book will appeal to scholars of popular culture, sociology, cultural and media studies.

political dramas tv shows: The "Disguised" Political Film in Contemporary Hollywood Betty Kaklamanidou, 2018-04-19 With strict guidelines on methodology and time frame -- films produced after September 2001, and a socio-semiotic theoretical framework -- Betty Kaklamanidou unpacks the problematic terms and ideas that go along with defining a new genre. Kaklamanidou considers a different sub-genre per chapter, placing each group of films in their socio-historical context to reach conclusions about the production of political films in millennial Hollywood. In shifting the terms of the debate, *The Disguised Political Film in Contemporary Hollywood* offers a fresh, new approach to the subject of the political film. The political film is not a clearly delineated object but rather an elusive one and resistant to clear boundaries. So, what is a political film? Can *The Hunger Games* (2012) belong to the same category as *Lincoln* (2012)? Is *Jarhead* (2005) a political movie simply because it is set during the Gulf War but with no reference to the motives of the conflict and/or American and Arab relations, and thus in the same group of war films such as *The Three Kings* (1999), another narrative that focuses on the same military conflict but includes direct commentary to governmental and military strategies? Are historical films by definition political since the majority deals with significant events and/or people in a specific socio-cultural landscape?

political dramas tv shows: Visual Political Communication in Popular Chinese Television Series Florian Schneider, 2012-09-14 Visual Political Communication in Popular Chinese Television Series has been granted the EastAsiaNet 2014 Award! In *Visual Political Communication in Popular Chinese Television Series*, Florian Schneider analyses political discourses in Chinese TV dramas, the most popular entertainment format in China today. Schneider shows that despite their often nationalistic stories of glorious emperors and courageous officials, such programmes should not be mistaken for official propaganda. Instead, the highly didactical messages of such series are the outcome of complex cultural governance practices, which are influenced by diffuse political interests, commercial considerations, viewing habits, and ideological assumptions. Schneider argues that these interlinking factors lead to a highly restrictive creative environment and to conservative entertainment content that ultimately risks creating precisely the kind of passive masses that Chinese media workers and government officials are trying so hard to emancipate.

political dramas tv shows: Telecinematic Stylistics Christian Hoffmann, Monika Kirner-Ludwig, 2020-05-14 Over the last two decades, the study of discourse in film and television has become one of the most promising research avenues in stylistics and pragmatics due to the dazzling variety of source material and the huge pragmatic range within it. Meanwhile, with the advent of streaming and the box set, film and television themselves are becoming separated by an increasingly blurred line. This volume closes a long-standing gap in stylistics research, bringing together a book-level pragmastylistic showcase. It presents current developments from the field from two complementary perspectives, looking stylistically at the discourse in film and the discourse of and around film. This latter phrase comes to mean the approaches which try to account for the pragmatic effects induced by cinematography. This might be the camera work or the lighting, or the *mise en scène* or montage. The volume takes a multimodal approach, looking at word, movement

and gesture, in keeping with modern stylistics. The volume shows how pragmatic themes and methods are adapted and applied to films, including speech acts, (im)politeness, implicature and context. In this way, it provides systematic insights into how meanings are displayed, enhanced, suppressed and negotiated in both film and televisual arts.

political dramas tv shows: State Propaganda in China's Entertainment Industry Shenshen Cai, 2016-05-20 Most current research on the evolution of China's propaganda discourse only touches upon recent variations of official propaganda rhetoric grounded in popular media. Here, the research is extended by tapping into the most recently released popular cultural media narratives such as online documentaries, films, TV drama serials and education programs, all of which are enlisted and co-opted by the state for propaganda goals. This book maps out the cutting-edge expansions of official propaganda that are embedded in the entertainment industry of contemporary China. Its case studies bring to light the progression of the mainstream propaganda discourse in terms of its merging, cooperation and compromise with the commercial features of both the traditional and newly-emerging entertainment media. In particular, it examines a group of mass entertainment products which include two best-selling mainstream blockbusters, two on-line commercial web documentaries, the China Central Television Moon Festival Gala series, socialist revolutionary TV drama serials, and a prime time science and education program. In so doing, it forefronts the up-to-date developments and novelties of state propaganda: its motives, reasoning and approaches within the mediasphere of today's China. Illustrating how the CCP propaganda apparatus and tactics evolve and become embedded in popular media products, this book will be of interest to students and scholars of Chinese studies, Media Studies and Popular Cultural Studies.

political dramas tv shows: The Media and Political Change in Southeast Asia Jonathan

Woodier, 2009-01-01 . . . the book is in a comprehensive, readable format. . . the book is logically organised, rich in data and statistics regarding the issues that it covers, as well as accessibly written such that its points would not be lost on the average upper-level undergraduate student with some preparation in Asian studies and the social sciences. Jane M. Ferguson, South East Asia Research . . . a serious academic work that should be on the official reading list of every media studies course. Chris Roberts, Presenter, Sky News Jonathan Woodier has written an excellent book on the politics of media control in Southeast Asia. He shows how political elites in the region are using major events such as the 1997 Asian Financial Crisis and the 2001 September 11 terror attacks as well as innovations in media tools such as public relations and the internet to control information flow to their citizens. This book is a must read for anyone interested in an explanation why Southeast Asian models of authoritarian models are surviving. A brilliant analysis, it combines media theory with a critical discussion of contemporary developments in Asia. James Gomez, Keio University, Japan True to the old Chinese adage kill a chicken scare a monkey , the few who once challenged Southeast Asia s ruling elites disappeared and the majority were silent. Crude, but effective. Modern times, however, demand a more sophisticated approach. Ruling elites now strip cultures naked and micro manage people s minds. Their preferred tools of penetration and manipulation are a compliant media and a money hungry PR industry. Jonathan Woodier s insights will ensure that you will never read a newspaper or watch TV news in quite the same way again. Trevor Watson, Professional Public Relations Pty Ltd, Australia This is an engaging and informative analysis of the media landscape in South East Asia. It uncovers the pervasive impact of the global media on the political process, and raises important academic and policy issues in the process. This book is timely, and will be a must read for policymakers, academics and students across communications, media studies, politics and democratization, as well as for everyone with an interest in current day developments in South East Asia. Joep Cornelissen, Leeds University Business School, UK Jonathan Woodier s latest work considers what impact the media has upon the democratization process in Southeast Asia. Has the media had a liberalizing effect or become subject to elite control in Southeast Asia and, if so, why? What role does the global media play in this process, particularly given its conglomerization and commoditization? By examining the communications media and its relationship to political change in Southeast Asia, this fascinating study will endeavour to provide both a regional comparative analysis and a more balanced interpretation of the mass communication media in the wake of September 11, 2001. The book also investigates the durability of authoritarian regimes and the enduring capacity of the media-controlled state alongside the growing sophistication of political communications particularly the use of PR consultants. The author provides an insider s view with unique insights into the practice of political communication and its development throughout the strategically important region of Southeast Asia with its large Moslem states as well as much further afield to countries such as China and post-industrial Europe. As such the book will be warmly welcomed by academics of politics, international relations, media, communications and PR. It will also appeal to researchers interested in political change, the rise of the global media giants and the influence of authoritarian states such as China.
